Roblox was created by a company called Ellation. According to Wikipedia, Ellation is a gaming production company based in San Francisco, California. They started out with games that were mainly for children but now have many different types of games in which you can play with your friends and family. Some of the games have mini-games where you can buy special items or earn coins in order to unlock new areas or items. The idea behind robux is that players can earn robux by playing and participating in the game universe. With this system, players do not need to spend money on anything; they just collect more robux as they play in the game. Robux is the virtual currency of Roblox and can be bought in packages or earned in-game.

I love roblox because it is filled with amazing games. Also, I think it needs more easy to download games and more new games. There are lots of great players that are making great games but they feel unappreciated because if there is a new update some other player comes onto their game and steals their ideas so that doesn't make them happy. I also think that there should be easier ways for players to get to private chat or opt out of chat but not everyone would like being in a public chat room which would only make them mad. I like being in a private chat room with my friends because no one else can get into the room and report us for saying bad words.
