For example, Jailbreak offers a premium feature which allows players to purchase more life points. As the game is free, there is no way for them to gain XP in the traditional sense. Instead of implementing XP via cash or coin drop-rates (as would be done in a game that relies on premium features), they offer more life points as a way to make it easier for players if they choose to purchase them. Free games also don't have an option of offering premium features that modify their economies or XP systems. Therefore, they usually offer only the default system as an option for non-Premium members.

If you look at the way the majority of games are played you realize that one person or a group of players will have a significant advantage over another unfairly and those who aren't as good will be forced to pay more for their virtual items in order to keep up with the better players. That's not fun.

I love Roblox, but there are a few issues that I think need to be fixed. I have noticed that there is a lot of adult themes, and people swear a lot (which is not acceptable, it should only be in forums, not in game). It also needs more updates. In my opinion you should only take down the website if you combat online harassment or if someone steals someone else's idea. You can't create an account with your email address or password because the website doesn't know who you are. It only knows your username which is so unfair because someone could send harassing messages to other players without them knowing the real person. You should add more games and less glitches, with more updates. I really hope you take my suggestions into consideration, it would be great if you fixed all the big issues in Roblox.
